BAYSIDE TIENDA HOMES

PROJECT BACKGROUND

- During and after the pandemic, investor interest soared as buyers are finding value and potential gains from shophouses
- Shophouses – 2 or 3 storey building that has a store on the ground floor and residence on the upper floors
- Mostly popular in the 19th and early 20th century
- Shophouses provide convenience to the residents
- It empowers the neighborhood while nurturing the relationships of neighbors
- Bayside Tienda Homes is situated in a residential area with limited shops nearby
